PROFESSIONAL SUMMARY

B.Tech CSE Graduate (2026) with strong foundations in Java, Python, and SQL, and practical experience in AI application development, Machine Learning, and data analysis. Built and deployed multiple projects across web, AI, and data domains. Infosys Global Hackathon Second Runner-Up (national, 2025) · TCS CodeVita Season 13 global top-2% — focused on building impactful solutions through consistent learning and execution.

TECHNICAL SKILLS

Languages: Java, Python, SQL

AI & LLM: Prompt Engineering, Google Gemini API, ChatGPT API, n8n (AI workflow automation)

Web Technologies: HTML, CSS, JavaScript (basic)

Frameworks & Tools: Flask, Git, Jupyter Notebook, VS Code

Databases: MySQL, MongoDB

Office Tools: MS Word, MS PowerPoint, MS Excel (basic), Power BI (basic)

PROJECTS

Smart Employee Leave Management System · Java · SQLite · OOP · Exception Handling [\[GitHub\]](#)

- Built a Java-based application to manage employee leaves — includes leave application, manager approval, cancellation, and automatic balance tracking.
- Applied OOP principles, custom exception handling, and Java Collections; used SQLite for data storage and SQL queries for record management.

Bilingual AI Diet Coach — Voice-Enabled AI Health Assistant · Python · Flask · ChatGPT API · Web Speech API · Prompt Engineering [\[GitHub\]](#)

- Built a Python Flask web application that takes real-time voice input and delivers personalized diet advice in English and Hindi using ChatGPT API.
- Integrated Web Speech API for voice-to-text input and applied prompt engineering techniques to improve the quality of AI-generated responses.

AI Assistant — Prompt Engineering Web Application · Python · Flask · Google Gemini 2.5 API · Prompt Engineering [\[GitHub\]](#)

- Built a Python Flask web app integrating Google Gemini 2.5 Flash API for real-time question answering, text summarization, and content generation.
- Applied multiple prompt engineering strategies to optimize AI response quality across different task types; implemented rate-limit handling and automatic model selection.

SkillBridge — AI Learning & Career Platform · HTML · CSS · JavaScript · AI Integration [\[GitHub\]](#)

- Built the frontend of an AI-based career matching platform for rural learners using HTML, CSS, and JavaScript as part of a 3-member team.
- Contributed to problem analysis, solution design, and presentation — delivered a working prototype under a 24-hour hackathon constraint.

INTERSHIPS

AI Intern | Mirai School of Technology · Remote

Jan 2026 – Feb 2026

- Completed a practical AI project using n8n workflow automation — applied foundational AI concepts and delivered end-to-end from requirement to submission.

Summer Intern | Odisha State Housing Board (Govt. of Odisha) · Bhubaneswar

Jun 2025 – Jul 2025

- Completed a 30-day government internship under the A.O. (Computer) department — used MS Word, PowerPoint, and Excel for documentation and data entry tasks.

EDUCATION

B.Tech — Computer Science Engineering

Sept 2022 – May 2026

C.V. Raman Global University (CGU) · Bhubaneswar, Odisha

CGPA: 8.94 / 10

Class XII — CHSE Odisha

May 2020 – May 2022

Prananath H.S School · Khordha, Odisha

Percentage: 73%

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- Second Runner-Up — Infosys Global Hackathon 2025, Hyderabad (Aug 2025):** Delivered an AI platform recognized in top 3 nationally among hundreds of competing engineering teams.
- TCS CodeVita Season 13, Round 2 (Dec 2025):** Ranked 1025 globally out of 6,000+ participants in competitive algorithmic problem solving.
